Application for Consent to Assign Domestic
 Authority Pursuant to Section 214 of the
 Communications Act of 1934, as amended

File No. _____

**JOINT APPLICATION FOR CONSENT TO ASSIGN
 DOMESTIC AUTHORITY PURSUANT TO SECTION 214
 OF THE COMMUNICATIONS ACT OF 1934, AS AMENDED**

Pursuant to Section 214 of the Communications Act of 1934, as amended (the “Communications Act”), 47 U.S.C. § 214, and Sections 63.03 and 63.04 of the Commission’s Rules, 47 C.F.R. §§ 63.03, and 63.04, U S Cable of Coastal Texas, L.P. (“U S Cable”) and Midcontinent Communications (“Midcontinent”) hereby request consent to the assignment of domestic Section 214 authority from U S Cable to Midcontinent. U S Cable is a non-dominant carrier authorized by the Commission to provide domestic telecommunications services. The Applicants seek streamlined processing of this Joint Application pursuant to Sections 63.03(b)(2) of the Commission’s Rules.

In support of this Joint Application, the Applicants respectfully submit the following information:

Background

U S Cable provides cable, high speed Internet, interconnected voice over IP service and non-switched common carrier services in a variety of markets across the country, including parts of Minnesota and Wisconsin. Following this transaction, U S Cable will continue to provide these services in the markets that are not part of this transaction.

Midcontinent is the largest cable provider in the Dakotas. Midcontinent offers cable service, high speed Internet and telephone service, including both switched and non-switched services, across North Dakota and South Dakota, and also serves some customers in western and northern Minnesota. Midcontinent has been offering long distance telephone service since 1982 and local telephone service since 1999. Midcontinent obtained Section 214 international authorization in 2001.¹

Midcontinent's telephone service is a direct replacement for incumbent telephone company offerings, including local and long distance services; features like call waiting and call forwarding; and voice mail. Midcontinent's telephone service is offered via its own facilities, and it is certificated as a local exchange carrier in Minnesota, North Dakota and South Dakota. Midcontinent serves more than 80,000 telephone customers and more than 250,000 customers for all of its services combined.

Both U S Cable and Midcontinent have market shares in the interstate, interexchange market of less than ten percent (10%) and neither U S Cable nor Midcontinent is dominant with respect to any service. U S Cable and Midcontinent do not currently serve the same geographic markets and, therefore, there will be no increase in market concentration in any of the markets served by either Midcontinent or U S Cable. The proposed transaction also will not result in any meaningful change in the market share of Midcontinent in the interstate

¹ See Public Notice, DA No. 01-1604 (Jun. 29, 2001), granting File No. ITC-214-20010606-00327.

telecommunications market. Consequently, this Joint Application is entitled to streamlined treatment pursuant to Section 63.03(b)(2)(i) of the Commission's Rules.

Description of the Transaction

This transaction contemplates the sale of certain assets of U S Cable to Midcontinent under an asset purchase agreement between the parties. U S Cable is selling the assets associated with its operations in the Minnesota and Wisconsin markets listed in Exhibit 1. Following the transaction, U S Cable will continue to operate in other markets where it currently provides cable service. Consequently, this application requests authorization for a partial assignment of U S Cable's Section 214 authority.

Qualification for Streamlined Processing

U S Cable and Midcontinent affirm that (a) the proposed transaction will result in Midcontinent having a market share in the interstate, interexchange marketplace of less than 10 percent; (b) following the proposed transaction Midcontinent will provide competitive telephone exchange service and exchange access services exclusively in geographic areas served by a dominant local exchange carrier that is not a party to the transaction; and (c) none of the applicants is dominant with respect to any service. Consequently, this transaction qualifies for streamlined processing under Section 63.03(b)(2)(i) of the Commission's Rules.

Transfer of Domestic Section 214 Authorization

In accordance with the requirements of Section 63.04(a) of the Commission's Rules, Applicants submit the following information:

Each of the entities listed above is non-dominant and, to the best of Midcontinent's knowledge, does not provide any service in the geographic area covered by this application. In addition, affiliates of Comcast may offer intrastate services in certain states, but do not offer such services in any geographic area that is subject to this application.

(5) Certification by Transferee pursuant to 47 C.F.R. §§ 1.2001-1.2003 that no party to the Joint Application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 583

MMI and the Trust hereby certify, pursuant to 47 C.F.R. §§ 1.2001-1.2003, that to the best of their knowledge, information, and belief, no party to this Joint Application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 583.

(6) Description of the transaction

This transaction contemplates the sale of certain assets of U S Cable to Midcontinent under an asset purchase agreement between the parties. U S Cable is selling the assets associated with its operations in the Minnesota and Wisconsin markets listed in Exhibit 1. Following the transaction, U S Cable will continue to operate in other markets where it currently provides cable service.

(7) Description of the geographic areas in which the U S Cable and Transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area

U S Cable provides non-switched domestic telecommunications services in New Jersey, Texas, Wisconsin and Minnesota in areas that correspond to its cable systems in those states. U S Cable operates in specific local markets in Minnesota and Wisconsin, which are listed in Exhibit 1 to this application.

Midcontinent offers local exchange, exchange access and interstate interexchange telephone service in North Dakota, South Dakota and portions of western and northern Minnesota. Local exchange and exchange access services are offered via Midcontinent's own facilities and interexchange telephone services are offered via Midcontinent's own facilities or resale. Midcontinent is certificated as a local exchange carrier in Minnesota, North Dakota and South Dakota. Midcontinent serves more than 80,000 telephone customers.

There is no overlap between the service areas of U S Cable and Midcontinent. U S Cable and Midcontinent operate in different parts of Minnesota and Midcontinent does not operate in Wisconsin.

(8) Statement as to how the Joint Application fits into one or more of the presumptive streamlined categories in Section 63.03 of the Commission's Rules or why it is otherwise appropriate for streamlined treatment:

U S Cable and Midcontinent affirm that (a) the proposed transaction will result in Midcontinent having a market share in the interstate, interexchange marketplace of less than ten (10) percent; (b) following the proposed transaction Midcontinent will provide competitive telephone exchange service and exchange access services exclusively in geographic areas served by a dominant local exchange carrier that is not a party to the transaction; and (c) none of the applicants is dominant with respect to any service. Consequently, this transaction qualifies for streamlined processing under Section 63.03(b)(2)(i) of the Commission's Rules.

The proposed transaction will have no adverse effect on competition. Grant of streamlined treatment for this Application is consistent with Commission precedent.

(9) Identification of all other Commission applications related to the same transaction

There are no other Commission applications related to this transaction.

(10) Statement of whether the Applicants are requesting special consideration because either party to the transaction is facing imminent business failure

No Applicant is facing imminent business failure. Therefore, the Applicants are not requesting special consideration for this reason.

(11) Identification of any separately filed waiver requests being sought in conjunction with the transaction

No separately filed waiver requests are being sought in conjunction with the transaction.

(12) Statement showing how grant of the Joint Application will serve the public interest, convenience and necessity, including any additional information that may be necessary to show the effect of the proposed transaction on competition in domestic markets

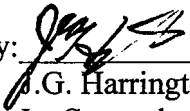

The proposed transfer of control of U S Cable will allow Midcontinent to provide additional services to customers in U S Cable's service area and to increase the efficiency with which Midcontinent provides service to its existing customers in Minnesota and elsewhere. Midcontinent's long experience in providing competitive telecommunications services to residential and business customers will allow it to provide high quality service to consumers and businesses in the affected area. Moreover, because there is no overlap between Midcontinent's current service area and U S Cable's service area, competition will not be adversely affected by consummation of the proposed transaction.

Conclusion

For the foregoing reasons, the Applicants respectfully submit that grant of this Joint Application by the Commission would serve the public interest, convenience and necessity.

Respectfully submitted,

Midcontinent Communications
